1 Start by drawing an eye near the top left corner of the paper. Draw an upside-down "U" above the eye for the bony ridge.

2 Add a curved line for the back of the head. From the ridge, draw a line that approaches the right side of the page, then cuts in below the eye. Add another ridge on top.

3 Draw the bottom jaw and curve the line down to run off the bottom of the page for the neck.

4 Add a nostril and a backward "C" shape for the nose. Add pointy teeth, then connect the top and bottom jaw with a curved line.

5 Close off the bottom jaw and make a line from the corner of the mouth to the bottom of the page. Add stripes.

6 Add details! You can add stripes, scalloped lines, zig zag lines and shapes. Don't forget a few feathers on the head!

— How to Draw a Dragon —

Start in the middle of the page!

1. Start with a sideways "V" for the mouth, followed by a large "U" shape to form the belly and tail. Connect the bottom of the mouth to the "U" for the chin.

2. From the top of the "V" draw a small bump for the nose, and a large bump for the head. Continue the line in a shallow "U" shape until it reaches the tail.

3. Add a triangle for the tip of the tail. Draw a set of wide legs at the bottom (erase where the dotted line is.) Draw a small set of arms below the mouth (erase where the dotted line is.) At the top of the body, draw an outline for the wing.

4. At this point you can finish the wing by connecting the ends with small curved lines. You can complete your dragon however you would like. Horns can be added to the head, sharp teeth added in the mouth, expressive eyes, small "U" shaped scales all over the body, and even fire coming out of the mouth!

You can use this guide for the DSS Dragon on the Roof & How to Draw a Dragon lessons!

How to Draw a Daffodil

3

4

5

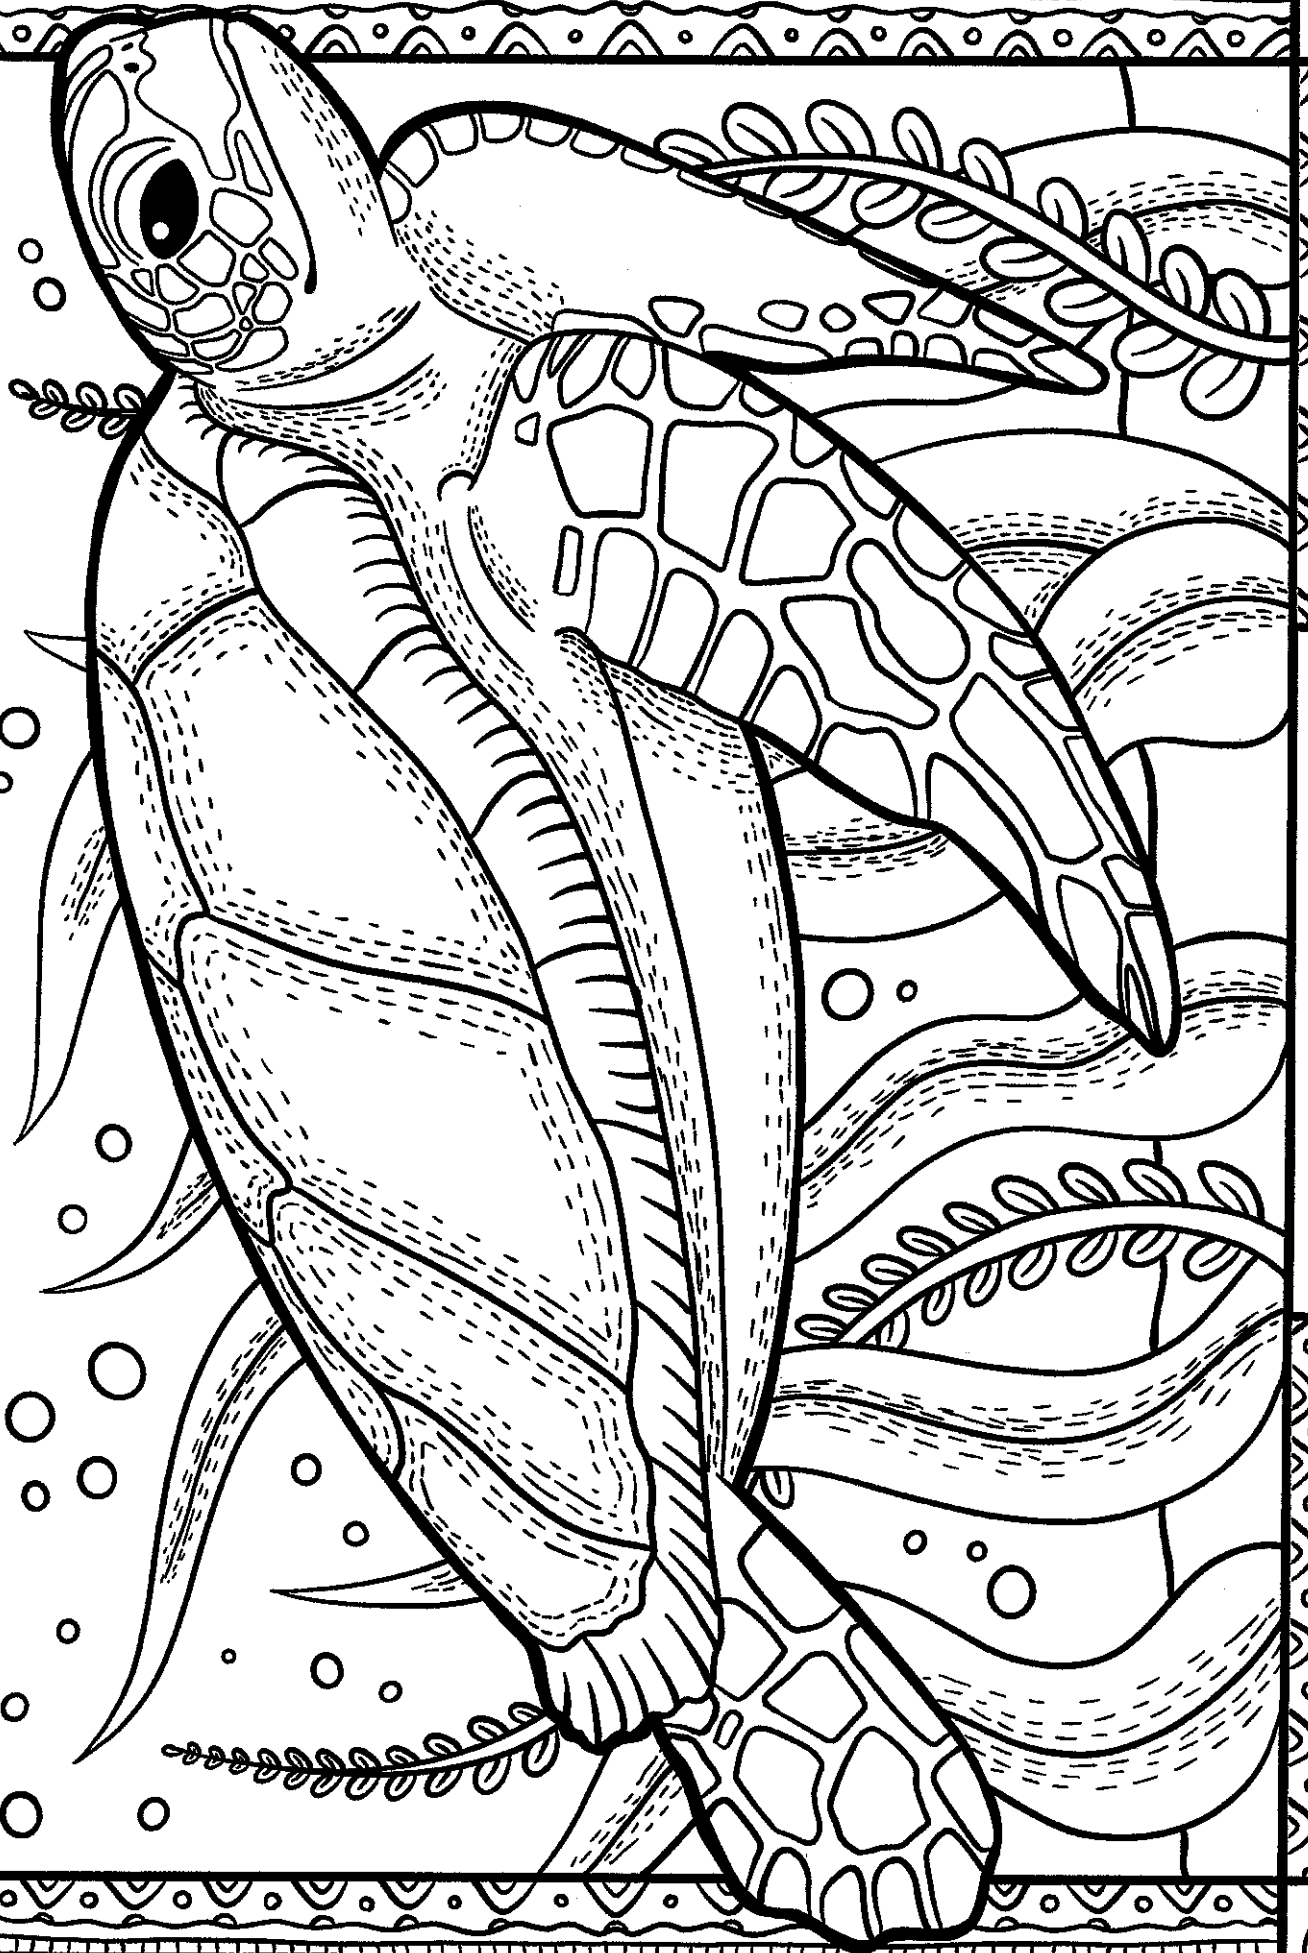

1. Start with the center of the daffodil by drawing a rippled circle.
2. Draw two stamens. And a sideways letter "U".
3. Add a petal on the top part of the letter "U" and draw 3 more overlapping petals.
4. Add a curvy stem. Daffodil stems are rarely straight. Draw the first line of the stem like a gentle curving letter "S". Draw the side of the stems to create a shape.

5. To draw the leaves, start at the stem and draw a curved line up towards the sky. Daffodil leaves droop a lot so curve the leaf downwards.
